**KN** INTERNATIONAL  
ARCHITECTS AND ENGINEERS LLC

KN International was founded in 2006 by the famous German architect Thomas Klumpp and ever since has developed into a multi-disciplinary international consultancy firm. Our professional teams provide independent expertise and effective performance in almost every discipline of engineering, architecture and construction management. Our team driven approach is built on collaboration with clients and all relevant stakeholders to maximize the value of the final product at the highest quality and sustainability standards.
