# *create together*

Founded in Germany in 1980 by visionary Architect Thomas Klumpp, KN International began as a specialized architectural firm and has since grown into a leading, multi-disciplinary consultancy. With our regional headquarters established in Abu Dhabi in 2006, we offer a comprehensive range of services, including Project and Construction Management, Infrastructure, Landscape Architecture, Transportation Planning, Urban Planning, Sustainability, and more.

Driven by a commitment to quality, innovation, and sustainability, we deliver high-performance solutions that exceed client expectations and meet evolving industry needs. KN International is a trusted partner for government and private clients across the Middle East, Europe, and Asia, shaping environments that reflect our expertise, values, and vision for a sustainable future.

# OUR EXPERTISE

## Project Management

We oversee all aspects of project execution, ensuring that every phase aligns with our client's goals. From inception to completion, we coordinate resources, schedules, and teams to deliver high-quality results on time and within budget.

## Cost Management

Our cost management services focus on delivering optimal value by closely monitoring budgets, controlling expenses, and managing financial risks. We ensure your project remains financially sustainable without compromising quality.

## Construction Management

With hands-on expertise, we manage the entire construction process, from planning through to completion. Our team ensures adherence to project timelines, quality standards, and safety protocols, delivering projects efficiently and effectively.

# OUR EXPERTISE

## Infrastructure

We specialize in creating robust infrastructure solutions that support sustainable development. From road networks to utilities, our infrastructure services enable communities to thrive and businesses to operate seamlessly.

## Landscape

Our landscape design and development services combine aesthetic appeal with environmental sustainability. We create outdoor spaces that enhance functionality, promote well-being, and harmonize with natural surroundings.

## Architecture

Our architectural services provide innovative design solutions that reflect functionality, beauty, and cultural relevance. We work closely with clients to create spaces that inspire, adapt to user needs, and stand the test of time.

# OUR EXPERTISE

## Transportation

We develop efficient transportation solutions that ease connectivity and improve mobility. Our services span planning, design, and implementation, ensuring seamless movement within urban and rural environments.

## Urban Planning

Our urban planning services shape sustainable and livable communities. We focus on strategic land use, environmental impact, and social needs to design urban areas that foster growth and resilience.

## Water, Environment and Sustainability

Our water and environmental services offer solutions in water treatment, waste management, and environmental protection, fostering a healthier planet. We integrate sustainability at every project stage, helping clients minimize environmental impact and achieve green certifications.

# OUR EXPERTISE

## Industrial Engineering

We provide tailored industrial engineering solutions that streamline processes, enhance productivity, and optimize operations. Our expertise drives efficiency across industries, improving profitability and reducing waste.

## Facility Management

Our facility management services ensure the smooth operation and maintenance of your property. We focus on safety, functionality, and efficiency, providing a high standard of service to support your daily operations.

## Power and Energy

We deliver reliable power and energy solutions to meet today's demands and future challenges. From renewable energy to efficient power systems, our services promote sustainability and energy resilience.
